The Journey of the Group:

ASIA PETROCHEM Group, Based in UAE is one of the fastest-growing names in Manufacturing, Distribution & International Trade of Chemicals, and Downstream Petrochemicals.

About Us:

Who are we and what we do:

Asia Petrochemicals LLC (APC), established as a Group Company in 1989, is primarily based in the UAE with multiple Manufacturing verticals and mainly active in the Production and Distribution of Solvents, Petrochemicals and their Downstream Products. The Company owns and operates one of the only Solvent Refining and **Esters Manufacturing Unit in** UAE from its flagship location in Ras Al Khaimah with Production Capacity of 40,000 MTPA.

The second vertical of APC Group includes an **Oil Blending** and Packaging Unit, wherein the Group's Multiple Lines of Products **in Lubricants, Oilfield and Cosmetics Sectors** are produced and packaged for Exports Worldwide.

The third vertical of APC Group, is that it owns and operate a **Bulk Liquid Chemicals Storage Terminal**, located in Hamriyah Free Zone Phase-1, Sharjah with a storage capacity of 50,000 CBM. This terminal is mainly used for the in-house logistics support for the Group's import of key Raw Materials for all of its verticals and trading and distribution functions. This terminal is fully equipped with Class 3 Certification for storing hazardous and non-hazardous Chemicals, loading and offloading ships, barges through dedicated pipelines and has a completely automated Drums Filling and ISO Tanks Loading and Discharging facilities.

Business Unit 1:

Manufacturing of Solvents

Ethyl Acetate

Specification of ETHYL ACETATE :

CHARACTERISTICS	SPECIFICATION	METHOD	RESULTS
Appearance	Clear Colorless Liquid	Visual	Clear Colorless Liquid
Relative Density 20°C/20°C	0.892-0.902	ASTM D-4052	0.897
Acidity as Acetic Acid, % by Mass Max.	0.01%	ASTM D-1613	0.0054%
Water Content, % by Mass, Max	0.050%	ASTM D 1364	0.040%
Chromatographic purity as Ethyl Acetate, on Area basis, % Min.	99.60%	GC	99.91 %
Ethanol, Chromatographic purity On Area % max	0.10%	GC	0.030%
Initial Boiling Point (IBP) Final Boiling Point (FBP)	76-81°C	ASTM D- 1078 ASTM D- 1078	77°C 80.5°C

N-Butyl Acetate

Methyl Acetate

Specification of N-BUTYL ACETATE :

CHARACTERISTICS	SPECIFICATION	METHOD	RESULTS
Appearance	Clear Colorless Liquid	Visual	Clear Colorless Liquid
Odour	Fruity Smell	Oilfactory	Fruity Smell
Relative Density 27°C/27°C	0.8720-0.8750	ASTM D-4052	0.8740
Acidity as Acetic Acid, % by Mass Max.	0.005% max	ASTM D-1613	0.0036%
Water Content, % by Mass, Max	0.05%	ASTM D 1364	0.020%
Chromatographic purity as Butyl Acetate, on Height basis, % Min.	99.50%	GC	99.90%
Distillation Range °C : Initial Boiling Point (IBP) and Final Boiling Point (FBP)	124°C - 128°C	ASTM D-1078	122°C - 128°C

Business Unit 6:

Bulk Chemicals Storage Terminal

Apc owns & operates their own Bulk liquid chemical terminal located in the port of Hamriyah, Sharjah UAE.

Key Features

10X3000 CBM coated tanks with fixed roof.

2X3000 CBM coated tanks with storage of highly corrosive products

6X1000 CBM tanks for Blending operations.

The terminal is connected to the main harbour through underground pipe lines. Also capable for Handling Drumming, Filling & Container loading operations.
